1. WELCOME

Chair Hunt welcomed the Committee.

2. CALL TO ORDER

The meeting was called to order at 10.10 a.m.

3. DISCLOSURE OF ANY CONFLICTS OF INTEREST

No conflicts of interest were declared.

4. APPROVAL OF THE AGENDA

Chair Hunt asked if there were any revisions.

SPC 2012-09-12-01

By consensus, the TCCSPC approved the agenda.

5. DELEGATIONS

There were no delegations.

6. APPROVAL OF MINUTES FROM LAST MEETING – JUNE 15, 2012

Bob Lake noted an error in the 2nd paragraph on page 5. A sentence was repeated. The correction will be made and the revised minutes will be redistributed.

SPC 2012-09-12-02

By consensus, the TCCSPC approved the minutes with the above noted correction.

7. BUSINESS ARISING FROM MINUTES OF LAST MEETING

There was no business arising from the minutes.

8. CORRESPONDENCE

- a) KHSPA MWG to J. Hunt re: Comments from MOE on *Draft* and Proposed SPPs – June 24, 2012
- b) RM of Durham to M.A. Covelli re: Consistency between CTC, TCC, and SGBLS SPPs – June 25, 2012
- c) J. Stephens to W. Ren re: Comments on *Great Lakes Protection Act* – August 7, 2012
- d) J. Stephens to C. O'Neill re: Comments on *Draft* Great Lakes Strategy – August 7, 2012
- e) O. Salamon to G. Rodgers, J. Hunt, and J. Stephens re: Receipt of TCC SPPs

Correspondence was reviewed. Gerald McGregor provided context to the KHSPA MWG letter to Jim Hunt.

It was agreed that Jim Hunt would not forward a formal letter to the Ministry.

Items C and D will be discussed during the *Great Lakes Protection Act* discussion in the afternoon.

SPC 2012-09-12-03

By consensus, the TCCSPC received the items of correspondence for information.

9. A DISCUSSION OF UNRESOLVED COMMENTS ON PROPOSED TRENT AND GANARASKA SOURCE PROTECTION PLANS (PRESENTATION—STAFF REPORT (D))—J. STEPHENS, PROJECT MANAGER

All five TCC Conservation Authorities have received the Source Protection Plans. Jennifer noted that the approval

www.trentsourceprotection.on.ca

process is unknown with no date for approval. There has been dialogue with the province that any approval process will have to engage the Source Protection Committee with major decisions before the plan is approved.

Reviewing comments received during the last consultation would give the Committee the opportunity to respond although it is not a requirement. Feedback would advise the Province on how the Committee feels about the comments, whether they are supportive of suggested changes, etc. Now that the SPP has been submitted to the Province, the legislation indicates that it is the Source Protection Authorities that make revisions to the Plans based on discussions with the Ministry of the Environment.

A letter to the Minister would make the Committee's wishes known and support the approval process.

The Ministry will decide how to receive the comments and if another consultation period is required prior to Plan approval.

Scope of the Comments received:

- 1) New comments received that the Committee has never seen.
- 2) Repeat comments that the Committee has discussed previously.
- 3) Funding concerns
- 4) Out of scope

Jennifer reviewed each of the comments received and responses given.

See attached document.

In summary, the Committee mostly agreed with the responses provided, but thought that there could be changes to MOE's comment on Policy P-1(3) and OMAFRA's comment on policy N-3.

SPC 2012-09-12-04

By consensus, the TCCSPC approved the following resolution:

THAT the Trent Conservation Coalition Source Protection Committee agrees to the submission of a letter to the Minister of the Environment indicating its feedback on the comments received during the final consultation period.

It was agreed that Committee members would see the letter prior to it being sent. There is no obligation to respond to those who provided comments. The letter and policy changes will be submitted in October with feedback provided by the Committee.

10. A REVIEW OF THE MATERIALS SUBMITTED TO THE MINISTER OF THE ENVIRONMENT -J. STEPHENS, PROJECT MANAGER

Jennifer Stephens provided an overview of materials submitted to the MOE.

The submission included the following:

- ❖ Cover Letter
- ❖ Proposed Ganaraska Source Protection Plan
- ❖ Proposed Trent Source Protection Plan
- ❖ Explanatory Document
- ❖ Accompanying Document
- ❖ Consultation Record

- ❖ Business Case
- ❖ Analysis of stakeholder concerns and issues
 - Includes “out of scope” suggestions;
 - Identification of “problem policies”

The following recommendations, based on feedback from Source Committee Members and Municipal Working groups, were also submitted:

1. A provincial fund be established to cover start up costs for municipal implementation. This fund would support the establishment of the RMO/RMI office, costs to create agreements and by-laws, verification of significant drinking water threats identified in the Assessment Reports, and set up information management services.
2. A permanent provincial fund be established to support ongoing implementation. This fund should consider the severity of the threat being addressed, number of water users that could be affected by a SDWT, the overall operating cost per water user, or if the municipality does not have a drinking water system.
3. The Ontario Drinking Water Stewardship Program must be a long term permanent program. The program should ensure project eligibility for the elimination of threats, as well as taking into account the type and number of prescribed threat being addressed.
4. A permanent fund be established to support municipalities in establishing alternative sources for existing municipal water supplies. This would enable for long term planning if a system were compromised and provide for alternative management options for the municipality.
5. A permanent fund be established to enable the relocation of a municipal drinking water supply where feasible and practical, including decommissioning (of an existing water supply) and associated infrastructure costs.
6. That the *Clean Water Act, 2006* and/or the *Planning Act, 1990* carry provisions which ensure Official Plan policies developed to conform with Source Protection Plans are not appealable, unless the appeal is brought forward by the source protection committee or the municipality.
7. That the Province, or agencies working with the Province, provide resources (forms, templates, etc.) that will help ensure consistency in the content and materials used and distributed. This will help eliminate unnecessary duplication of efforts by implementers.
8. That the Province work with the Ministry of Municipal Affairs and Housing, and other relevant ministries to register the requirement for a risk management plan on properties where section 58 currently applies, or would apply in the future.

It was agreed that Jennifer Stephens would follow up on item 6 and provide clarification on its origin and wording.

SPC 2012-09-12-05

By consensus, the TCCSPC endorsed the above recommendations.

11. THE FUTURE OF THE SOURCE PROTECTION COMMITTEE – WHERE DO WE GO FROM HERE? (PRESENTATION) -J. STEPHENS, PROJECT MANAGER
